SEO Overview

Ever wondered how some businesses pop up at the top of your search results? That's the **magic of SEO.**

Imagine your website or any platform becoming a magnet to the audience?

Just like Big Brands pulling in **millions** with smart tricks.

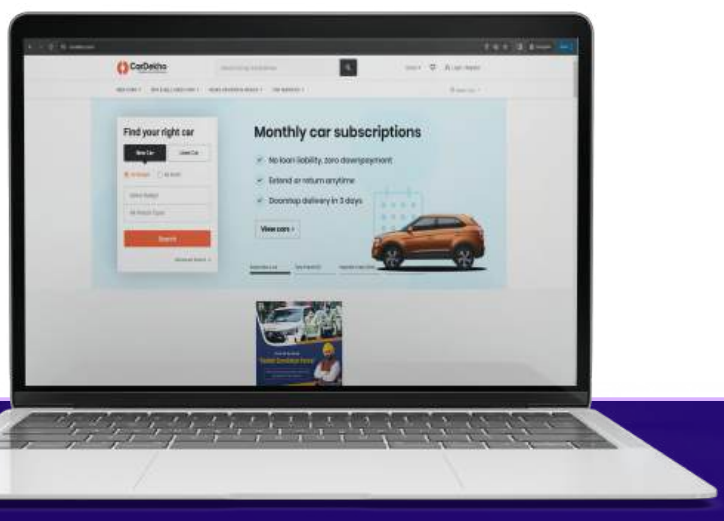

Myntra

Myntra, a **fashion giant** that turned the waves of e-commerce in India with smart SEO.

With a strategy that ranks **64K+ keywords** on 1st position, Myntra has generated **78.1 million monthly visitors**.

CarDekho
Badhte India Ka Bharosa

Names like CarDekho appears on the top whenever you search for any car-related query on Google.

SEO is the behind-the-scenes hero.

CarDekho didn't just revolutionize car buying and selling in India; they used SEO to fuel a surge of clicks.

Their recipe for success?

A powerful SEO strategy that helps them gain organic traffic each month.

They mastered SEO to stand out, turning every click a **chance to shine.**

Your story can be next!

Let's make it happen.

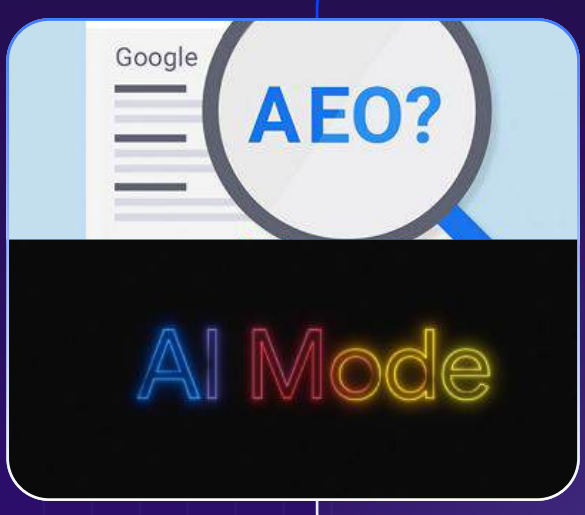

SEO Meets AI

The Future of Ranking Has Changed

The SEO game is evolving faster than ever.

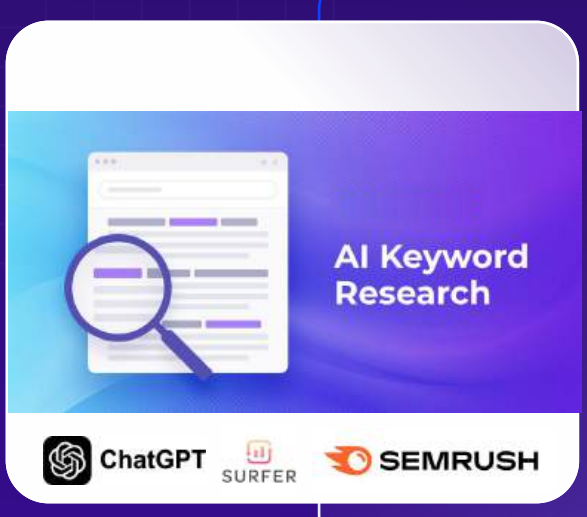

With Google's Search Generative Experience (SGE) and AI-generated results becoming the new norm, traditional tactics are no longer enough. That's why we've infused our SEO Specialist Bootcamp with the latest AI-powered workflows and tools - so you don't just keep up, you stay ahead.

What's New in Our AI-First SEO Curriculum?

Understand Google's AI Ecosystem

- What is SGE, AEO, and AIO?
- How AI-generated answers change your SEO strategy
- Entity-based targeting and zero-click search domination

Smarter Keyword Research & Strategy Using AI

- Generate keyword clusters using ChatGPT, Surfer & SEMrush
- Target voice searches, featured snippets & AI answers
- Map user intent and TOFU-MOFU-BOFU journeys with AI

AI for Content, Meta Tags & UX

- Write SEO-optimized titles, descriptions & content using tools like Jasper, Frase, Copy.ai
- Enhance EEAT, tone of voice, and storytelling with AI support
- Create highly clickable, user-first content faster than ever

AI-Powered On-Page & Technical SEO

- Use AI to optimize site architecture, URL structures & schema
- Generate robots.txt, sitemaps, and run smart audits with Sitebulb, Screaming Frog, RankMath
- Automate internal linking, image optimization, and speed fixes

From SERP to SGE- We Prepare You for What's Next.

With our upgraded curriculum, you'll learn to rank in Google's evolving AI landscape-not just old-school blue links.

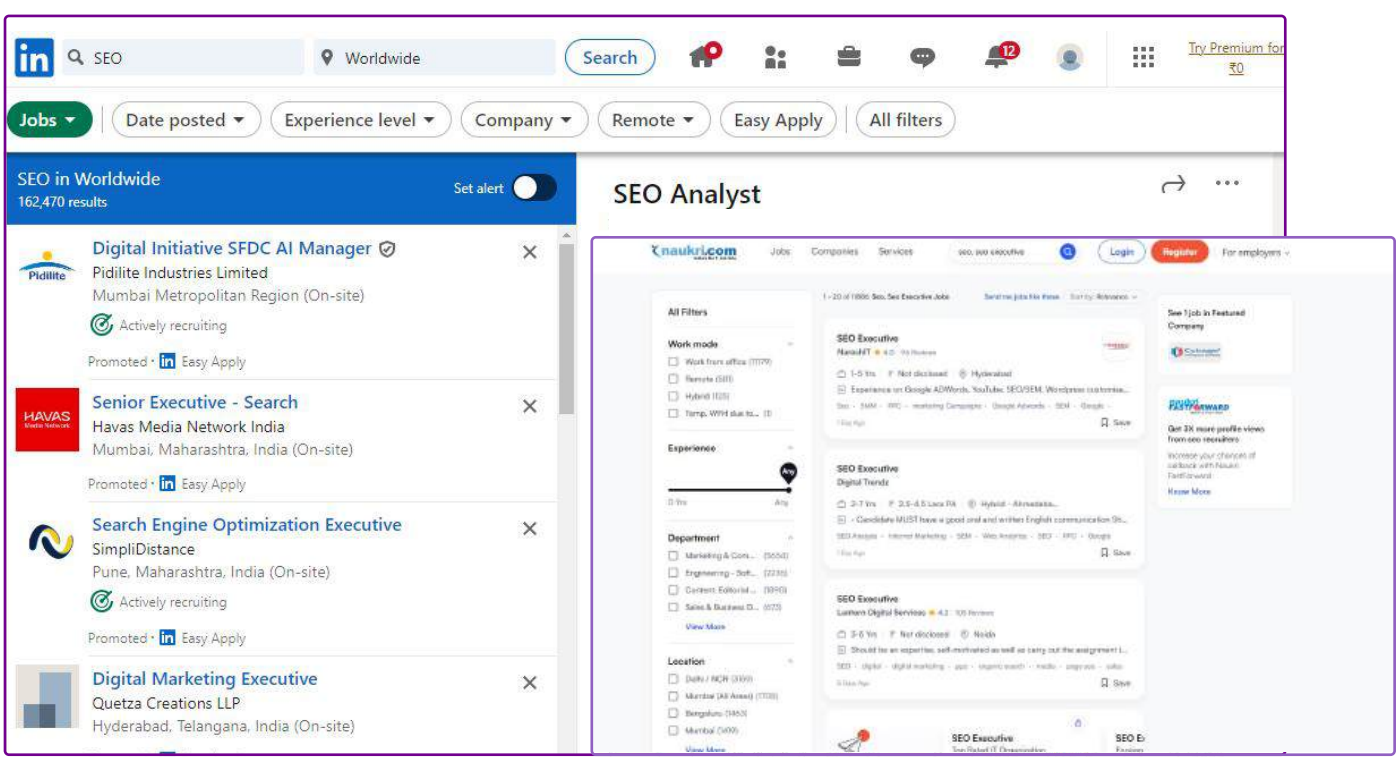

SEO:
Scale & Scope

We've fetched some data for you!

LinkedIn identifies SEO' as a top in-demand profession, with **162,470** current openings across the world.

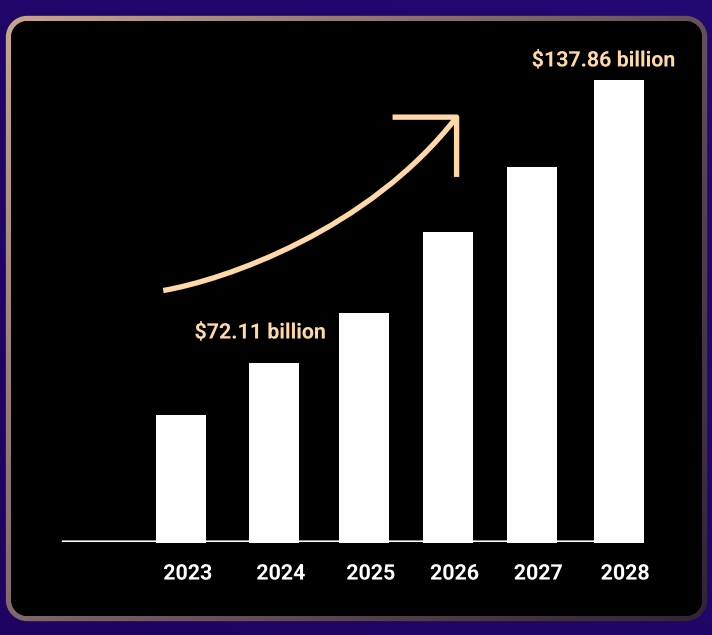

Source: Naukri.com

Uncover the bootcamp modalities

- Live Sessions
- Recordings
- Quizzes
- Projects
- Cheat sheet
- Case Studies
- Notes

Curriculum

Module 1

Search Ecosystem & AI Foundations

Build a strong foundation by understanding how modern search engines work, including crawling, indexing, and ranking mechanisms. Learn the core pillars of SEO and how they influence search visibility. This module also explores how AI is reshaping search through Google SGE, zero-click results, and LLM-driven search behavior, along with the importance of intent-based keyword research and E-E-A-T signals.

3 Live Sessions | 1 Project | 1 Case Study | 1 Quiz

Topics Covered

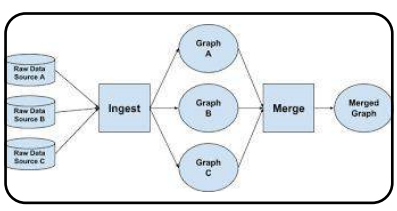

- Introduction to SEO in the AI era
- Types of SEO (On-page, Off-page, Technical)
- How search engines work (Crawling, Indexing, Ranking)
- Traditional SEO vs AI search
- Google AI Mode & Search Generative Experience (SGE)
- Zero-click searches & AI answers
- Search Everywhere Optimization
- Role of Large Language Models (LLMs) in search
- AI-driven keyword research
- Intent clustering & conversational search queries
- Google algorithms, E-E-A-T & authority signals

Tools

Google | Google Trends | ChatGPT | perplexity | AlsoAsked | SURFER

Projects

AI Search Intent Mapping for Food Discovery Queries – Website: zomato.com. Develop keyword clusters and search intent groups for restaurant discovery searches using AI-based keyword expansion and SERP analysis.

Case Study

HubSpot Topic Cluster SEO Strategy
Understand how HubSpot used pillar pages and topic clusters to build topical authority and scale organic traffic

HubSpot

Module 2

Advanced On-Page SEO & AEO Content

Learn how to optimize webpages using advanced on-page SEO techniques such as meta optimization, header structuring, and internal linking strategies. You will explore AI-driven content workflows and NLP-based content optimization to create search-friendly content. The module also covers featured snippet optimization, voice search strategies, FAQ schema, and content structuring for AI overviews and zero-click results.

3 Live Sessions | 2 Projects | 1 Case Study | 1 Quiz

Topics Covered

- Meta title & description optimization
- Header hierarchy and content structuring
- Internal linking strategy
- NLP content optimization
- AI content workflow (keyword → outline → draft)
- CTR optimization strategies
- Featured snippet optimization
- Voice search optimization
- FAQ schema implementation
- Content optimization for AI overviews and zero-click results

Tools

Google Docs | grammarly | Claude | ChatGPT | SURFER | frase

Projects

Project 1: **Featured Snippet Optimization Framework –** Website: healthkart.com/blog. Improve blog structure and headings to increase chances of appearing in featured snippets and AI answers.

HEALTHKART

Project 2: **AI-Optimized Product Content Strategy –** Website: nykaa.com. Improve product page content using semantic SEO and AI keyword insights.

NYKAA

Case Study

Healthline Featured Snippet Strategy
Analyze how Healthline structures medical content to dominate featured snippets

healthline

Module 3

Technical SEO & AI Readiness

Understand the technical backbone of SEO including crawlability, indexing, and effective site architecture planning. Learn how to improve website performance using Core Web Vitals optimization, mobile-first indexing, and crawl budget management. The module also covers schema implementation, technical SEO audits, JavaScript SEO basics, and AI-assisted techniques for identifying and fixing indexing issues.

3 Live Sessions | 1 Projects | 1 Case Study | 1 Quiz

Topics Covered

- Crawlability and indexing fundamentals
- Core Web Vitals optimization
- Mobile-first indexing
- Site architecture planning
- Crawl budget optimization
- JSON-LD schema implementation
- Knowledge graph and entity signals
- Technical SEO audits
- Indexing errors and fixes
- JavaScript SEO basics
- AI-assisted SEO audits

Tools

Happy to announce that I have successfully completed the SEO program from WS Cubetech! I want to express my gratitude to the incredible team at WS Cubetech for their guidance and expertise throughout this journey.

A huge thank you to the exceptional team at WS Cubetech for providing top-notch insights and guidance throughout this transformative journey. Excited to apply these skills in driving digital success!

Special Thanks to Virendra Soni

Virendra, I really need to say a huge Thank you. You've been an amazing SEO trainer. Your patience is something else! No matter how many times we asked the same questions, you were always there, calm and ready to explain things again. It's rare to find someone who teaches with such clarity and genuinely cares that we get it.

You make complex things seem simple, and that's a real skill. The way you handle every session makes learning not just useful but super enjoyable too. I've learned so much from you, and I honestly can't thank you enough.

Your commitment to keeping things top-notch is obvious. I really hope you keep teaching the way you do because it's awesome. Also, I can't forget to mention how much I appreciate your patience. Repeating things three or more times might seem small, but it meant a lot to me. It made the whole learning process feel more inclusive and supportive.

Thank you, Virendra, for everything. Your dedication to being an excellent teacher has made a big difference in my career and how I see things. Keep being amazing!
